

Sub-Sea Services

Sonavision

Sv4000
Bottom Scanning Sonar

- » Tunable and Variable Frequency Heads
- » Long Range Capabilities (+600 ft)
- » Operational in Depths up to 1500 meters
- » 27 deg Vertical Beam
- » Titanium Body

Simrad Kongsberg

Ms1000

Bottom Scanning Sonar

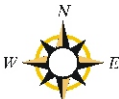

- » Capable of Integrating External Sensors
- » Annotations Utilizing Overlays
- » High Resolution Sonar Head (675 kHz)
- » 30 deg Vertical Beam
- » Range Capabilities up to 225 ft Radius
- » Aluminum Body-High Anodized Enclosure
- » Operational in Depths up to 3,000 meters

MUL-1 Gradiometer

- » 2,700 meter Water Depth Capability
- » Differential Milligauss Technology
